GENERAL DISCUSSION:

Walk thru of the building to inspect work done to date.

Foundation for new building is in. The building structure has been ordered.

The new building will be wired into the plant generator.

In the existing building, the old heating appliances have been removed. The new heating units to use existing penetrations in roof.

Mechanics lift and tools has been set up in the first two garage bays.

The new steel stairs to the mezzanine have been installed.

A second electric meter in the utility room was removed as is not needed with the new electric upgrades.

The new laminated roof beam and steel support columns are in place on the office area. Repairing the collapsed roof damage.

The new garage doors are still being debated. We are waiting for a price quote from the contractor, Daigle Electrical Construction. If we don't like the quote it will be put out to public bid.

Daigle Electrical Construction will do the fire alarm.
