1.) Stand for the Pledge of Allegiance

Tour the front older section of the cemetery, discussed stone straighten and stone alignment work to be performed. The estimate for the work is \$13.5k and the work is expected to take 6 working days.

2.) Reviewed front hedges and trimming and maintenance protocol that the Cemetery Superintendent Todd Holman has done and is currently engaged in.

3.) Discussed large tree at front lower corner and whether there is a need to trim a large limb.

4.) Walked the lower road back to the rear of the cemetery and discussed the required brush and limb trimming required to provide access to the stone wall backside. This is needed in order to preform work in the areas requiring repair and rebuilding.

- 5.) Mike discussed the integration between CIMS software and GIS as well as training – to be determined in the future.
- 6.) Reviewed CIMS (Cemetery Information Systems) plotted data against what is visually present for burials. The 1800's sections of the plots may have unmarked graves. It is difficult to lot plots for sale in these areas.
