

## **Meter requirements for Lunenburg Neptune Irrigation Meter program**

The Lunenburg Sewer Commission has approved the Neptune water meters for use in the Town. A Plumbing Permit must be taken out for this work by a licensed plumber and the Lunenburg Plumbing Inspector must sign off on the work when it is completed. The Neptune Irrigation Meter program application and a copy of the plumbing permit with the Inspector's signature must be submitted to the Sewer Commission office in order to participate in the program.

**Licensed Plumbers:** A full meter may be required or, if there is an existing Neptune meter, it may require only an upgrade to the meter register head (R900 MIU). New installs typically require couplings. Please specify when ordering.

Meters must read in cubic feet (cf).

Required equipment can be purchased at:

Ti-Sales, Inc.  
36 Hudson Road  
Sudbury, MA 01776  
T: 800-225-4616

**For the meter upgrade, you may need:**

- ☐ 5/8" T-10 meter with E-Coder register with couplings (7-1/2" meter length)
- ☐ 3/4" T-10 meter with E-Coder register with couplings (9" meter length)
- ☐ 1" T-10 meter with E-Coder register with couplings (10-1/2" meter length)
- ☐ 1-1/2" T-10 meter with E-Coder register with flanges (13-5/8" meter length)
- ☐ 2" T-10 meter with E-Coder register with flanges (17" meter length)
- ☐ 1-1/2" Mach 10 meter with E-Coder register with flanges (13-5/8" meter length)
- ☐ 2" Mach 10 meter with E-Coder register with flanges (17" meter length)
- ☐ R900 MIU (1-per meter register head)
- ☐ E-Coder Register only (specify size – 5/8,3/4,1,1-1/2,2)
