**BOARD OF HEALTH  
MEETING MINUTES  
March 1, 2010**

The Board of Health met at 7:00 pm at the Ritter Administration Building

Present: Chairman Dave Shea, George Emond, Ernie Sund, Perry Jewell and Jack Rabbitt

**TITLE 5 INSPECTION REPORTS REVIEWED:**

232 Burrage Street  
389 Mulpus Road

**SEPTIC PERMITS SIGNED:**

188-190 Hollis Road

**26 SPRING STREET EXTENSION**

George Sullivan met with the Board on behalf of the homeowner. Jim Van Buren was also present on behalf of an abutter, Paul Shea, Scott Laney and Jeff Stone. The system is in failure. This is a small, lake side lot with the well location less than 100 feet.

George Sullivan stated that the plan as submitted is for a two bedroom home. There was a permit issued in 2002 which has since expired. The state approved the plan but nothing was ever done with it.

The board discussed the location of the tank. Agent Jim Garreffo is not in favor of the current plan or well location. Abutters are concerned with the location to area wells. They would like the wells test to get a benchmark of current well quality.

At the very least this system would need to be deed restricted to 2 bedrooms.

After further discussion, this matter was continued until March 15, 2010 at 7:100 pm.

**193 PAGE STREET**

Tim Beauchim met with the Board on behalf of the owner. This system is in failure. This lot has extensive wetlands. Because of the wetlands the system has been placed to achieve the greatest offset.

After discussion and on motion by Emond and second by Sund, the variance requests were approved subject to the board receiving an amended letter and plan. All in favor.

Having no further business before the Board, the meeting was adjourned at 7:42 pm.
