SEPTIC DESTRUCTION PERMIT

Bob Ebersol, Chairman of the Sewer Commission, met with the board to discuss the System Abandonment Permit. It was stated that the Sewer Commission gives permission for the connection. Currently, the Board of Health does not witness the destruction of the system, however, an agent for the Board of Health executes an affidavit that the work has been completed. Chairman Ebersole suggested that an application for destruction be given out at the same time the Sewer Department office provides the application to connect.

This discussion was continued to give the Board time to review the permit and create a permitting process.

Meeting adjourned at 7:55 pm.
