Meeting called to order at 7:36 pm.

The Minutes of November 7, 2018 were reviewed and accepted as amended (spelling of member's name).

Committee spent time reading and reviewing Sections 7, 8 and 9 of draft plan and made grammatical edits and basic corrections to funding sources and responsible parties.

B. Pease thought that all parcels should be listed and that it should be considered a need to have a town database of the parcels. B. Kibbe said there is a land use inventory from the Assessors' database. He also mentioned that the inventory for owner and grant information has been amended and it will be a public document for residents to view.

B. Pease thought that saying parking is woefully insufficient at the beach wasn't a goal and that he feels it should be listed as one. B. Kibbe pointed out the Plan has different Sections and the Section he is referring to points out the need and that Section 9b makes recommendations for how to solve the need. In the case of Beach parking, it would be to acquire adjoining land which is mentioned in 9b.

S. Cammer mentioned that it would be helpful to have identifiers for each parcel. B. Kibbe said he just marked them to point them out and that when we sit down to implement we will be using a more detailed document.

B. Kibbe said he has drafted a letter to be sent to the various departments and committees with a draft copy of the Plan.

R. Brockelman thanked the Committee for all the work that has been done especially Brandon for all the time and effort to get this plan completed.

Meeting adjourned at 8:45 pm.
